

Sheldon is always cooperative, always obliging and always available in the kindest way to both students and teachers. Throughout his 15 year career at JPPS, he has been central in encouraging children to reach their potential and beyond.

For the teachers, Sheldon is an integral part in facilitating the conversion of report cards. He helps teachers with their classroom assignments, multimedia projects and classroom websites. He is also our school photographer and videographer and has worked endless hours at putting pictures and slideshows on First Class so that our parent body can enjoy what their children are doing in school. He is also responsible for visual content in the newsletter.

Sheldon's open door policy is not only appreciated by all, but creates a non-threatening and relaxed atmosphere for teachers and students around technology.
